

## **QUESTION BANK**

### ***Unit 3***

- 1. Explain categories of Cryptography.**
- 2. What are disadvantages of symmetric cryptography?**
- 3. Explain general approach of attacking a conventional encryption scheme.**
- 4. Explain VPN and its working.**
- 5. What are properties of VPN?**
- 6. Explain benefits of VPN.**
- 7. What is L2TP?**
- 8. Explain digital signature scheme.**
- 9. How does a system firewall works?**
- 10. What is need of a system firewall?**
- 11. What are types of firewall?**
- 12. Explain advantages and disadvantages of application gateways.**
- 13. What are advantages of state full application?**
- 14. What are disadvantages of state full application?**
- 15. What is packet filtering?**
- 16. What are drawbacks of packet filtering?**
- 17. Draw a schematic diagram of system firewall.**
- 18. Explain digital signature generation and verification.**
- 19. What is a signing algorithm?**
- 20. What is Cryptography?**
