

INDIA 2016

ABOUT WRO

World Robot Olympiad™ is an event for science, technology and education which brings together the young people all over the world to develop their creativity and problem solving skills through challenging and educational robotics competitions.

Colleges are invited to enter a team of three students to participate in this competition. Participating teams need to create, design and build a robot models that look or behave like a human athlete. The competition starts from preliminary to the final judging.
