

IIT KHARAGPUR

Presents

# National Students' Space Challenge '16

2nd-4th September 2016

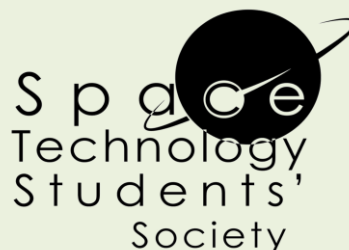

In association with  isro

**National Students' Space Challenge 2016 is going to be held from 2nd September to 4th September in IIT Kharagpur. NSSC '16 will include many robotic events, workshops, paper presentation, case study, guest lectures, workshops and many more.**

## ORGANISERS

It was conceived by Space Technology Students' Society, (spAts) a group of IITians from various disciplines working towards a common goal of motivating space interest among the student community of India, which is emerging as one of the major forefronts in the field of space technology. Officially, spAts is the student body of Kalpana Chawala Space Technology Cell (KCSTC), the contact point of Indian Space Research Organisation (ISRO), at Indian Institute of Technology, Kharagpur.
