Organizer

NATIONAL INSTRUMENTS

NIYANTRA is an annual Student Design contest organized by National Instruments.

This is an opportunity for engineering students to solve challenging real world problems, implement their solutions and get rewarded for it. NIYANTRA encourages students to use a platform based approach to build their systems using industry standard COTS hardware and software, instead of building a system from scratch.

One such platform-based approach is the National Instruments Graphical System Design, enabled by the LabVIEW RIO Architecture.

### HOW TO PARTICIPATE:

Step 1: Download the Rulebook: <http://natinstindia.com/NIYANTRA-2016-Rulebook.html>

Step 2: Submit an Abstract: <http://india.ni.com/niyantra-abstract-submission>

**Abstract Submission Deadline: May 31, 2016**

**Eligibility Criteria: BE/BTech – Students from 1<sup>st</sup> Year to 3<sup>rd</sup> Year Only**

### Prizes to be Won!

**INR 75000**

**INR 50000**

**+Win a chance to participate in NI Global Student Design Contest**
